

I'm a Delta Air Lines International airline pilot. I truly believe that allowing passengers to talk on their cell phones will lead to dangerous and disastrous results. People who are using their phone with others close-by are very rude and disruptive; we've all witnessed this and have also been victims of it. With no where to go to get away from the rude bastards, the air-rage potential is real. PLEASE PLEASE PLEASE DO NOT ALLOW CELL PHONE USE ON AIRCRAFT!!!! And don't expect the airlines themselves to set individual policy. Once one carrier allows it, the sheep that run the other airlines will just follow along, without regard to what's in the best interest of all involved. Just because we're able to do something doesn't mean we should. Thanks for hearing me out.
